

CONSTRUCTION CONSULTING

Trust in every detail. To ensure the best outcome for your project, you need someone who knows what they're doing—every step of the way. As an experienced construction consultant, Greyson provides effective leadership, sharp attention to detail and a valued partnership you can count on throughout the life of your project.

Greyson offers comprehensive construction management consulting services. Our construction consultants possess the developmental and construction experience to provide real-world, cost-effective solutions to the everyday challenges that owners, contractors, engineers, and architects face throughout the construction process. From the initial concept to project closeout, Greyson assists our clients in facilitating and coordinating the construction process to mitigate complex problems.

We develop plans based on each client's specific needs and project requirements by providing effective project leadership in the following service areas:

- Construction Design Reviews
- Contract Review and Negotiations
- Change Order Analysis
- Construction Design Reviews
- Staff Augmentation
- Bid Phase Management
- Cost Estimating & Evaluations
- Realtor referrals and selection
- Property location and acquisition
- Asbestos testing and remediation
- Contract review and negotiations
- Attorney selection
- Surveys and site plan development
- Initial pre-pricing standards
- Municipal zoning requirements and permits
- Construction means and methods
- Insurance needs and requirements
- Timelines and professional project management
- Bank and financing requirements
- General contractor referrals and selection
- Dispute Avoidance & Resolution
- Construction & Project Training
